

Type of Machine	Auto Drilling / Tapping with Multi Spindle, Auto Reaming and Burnishing Machine	
Supplied to following Companies	M/s. Maya Appliances, M/s. Mittal Electronics	
Component name	Mixer Grinder part	
City	Chennai, New Delhi	Model No. KMB-20-100-Hyd and KMB-M16-Mech
Purpose	Mutli spindle drilling/tapping in one setting and Reaming/burnishing in same machine	

Comments: - Multi spindle Drilling/Taping head used in these machines. Pneumatic clamping which makes easy for clamping and un-clamping the component. Single operator is enough to operate the machine. All operation is through PLC to ensure the timing. Operator safety is taken care with 2 switch to be pressed to start the machine. CNC machines have taken over conventional but still SPM drilling/tapping machines are the best for batch and mass production globally agreed. Please contact for more details.
